

## ClassroomNZ2020: For parents and whānau

ClassroomNZ2020 is a platform with a range of online courses now available as an interim support for learners until the end of February 2021.

This online resource is easy to use and allows personalised learning. Students can access the online courses in which they have been enrolled by their teachers, whenever and wherever they are.

The online courses cover a wide range of NCEA subjects, and now include courses for years 7-10.

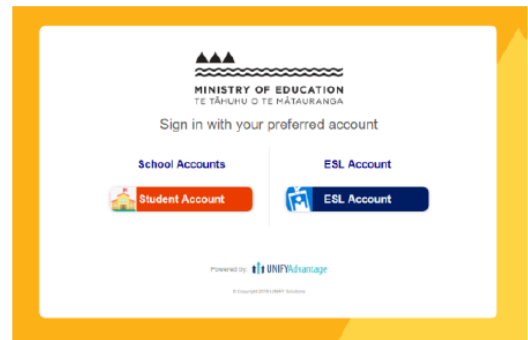

Your student's teacher will advise you if they will be using ClassroomNZ2020 to support their distance learning.

### Logging in

Your student's teacher will email them their details once they are enrolled in ClassroomNZ2020. They can access ClassroomNZ2020 using their existing school accounts (Google/GSuite for Education or Microsoft AzureAD/Office365).

A video and FAQs that explain to students how ClassroomNZ2020 works are available [here](#).

To access ClassroomNZ2020, go to [brightspace.education.govt.nz](https://brightspace.education.govt.nz), click on Student Account, and login with student email address.

It's a good idea to bookmark the link for easy access when logging in.

### Getting around ClassroomNZ2020

Content Browser ▾

Once your student has logged in, they will see their personalised ClassroomNZ2020 home page or dashboard, which shows the courses they are enrolled in.

Once in a course, they can work on modules set by their teacher. Each course will be a little different, but will have a mixture of content pages, activities, and downloadable or online workbooks. Your student's teachers will tell them which content and activities to do.

### Getting Help

Your student's school will be able to help with password issues and provide support in using the ClassroomNZ2020 courses.
